## Sunway Property Celebrates Mid-Autumn Festival with Communities

Sunway Property recently celebrated the mid-autumn festival with its communities by hosting four celebrations in Klang Valley and Johor, namely at Sunway Geo, Sunway Eastwood, Sunway Montana and Sunway Iskandar on the weekend of September 6 & 7. More than 3000 participants attended the celebrations.

SUNWAY ISKANDAR

NATURE'S CAPITAL CITY™

Sunway Geo at Sunway South Quay is an integrated development with Malaysia's First Elevated Bus Rapid Transit (BRT) – Sunway Line that will connect to Kelana Jaya LRT Line and Setia Jaya KTM Station once completed in 2015. Visitors to the Sunway Geo celebration were treated to two days of culture with colourful calligraphy, dough doll making, a feast of assorted mooncakes and photography sessions with Chang'E. The participants did not only enjoy the cultural experience but also had the opportunity to enjoy the cosiness of the Sunway Geo show gallery.

At Sunway Eastwood, the low density residential development set amidst the thriving locale of Puchong South and Seri Kembangan, and Sunway Montana which is located at Desa Melawati and features prestigious freehold townhouses and courtyard villas with an exclusive 14-acre private forest with skywalk; participants took part in mooncake making workshops. Both sessions saw many parents creating mooncakes with their children, and explaining to them the legend behind the Mid-Autumn festival. In addition to mooncake making, the participants at Sunway Montana were also treated to a dough doll making workshop which is a 4,000 year-old folk art form in China.

In Johor, Sunway's communities were invited to a spectacularly special treat, in conjunction with the successful sales of Sunway's first development in Sunway Iskandar, Citrine at the Lakeview precinct, which recently announced a 100% take-up. The participants enjoyed live performances, as well as a spectacular 10-minute fireworks show, made and released lanterns, and enjoyed the community spirit by feasting on mooncakes together.

Goo, 32, who attended the celebration at Sunway Geo, commended Sunway Property on its initiative to promote the cultural aspect of the mid-autumn festival.

"We brought our children to celebrate Mid-Autumn at Sunway Geo so that they can learn the meaning and folklore behind this important festival that is quintessential to Chinese traditions. In the meantime, we were also pleased to meet other members of our neighborhood, bringing us closer together as one community," she said.
